- It's all about concernment
 - if you=10-16 everybody >10-16 is **old**

So do we have any chance at all?

... how to get students to listen to you

- Find a teacher
 - you got the knowledge
 - he/she gets the didactics skills
- It's all about concernment
 - if you=10-16 everybody >10-16 is **old**
 - get the lists of students and print out their social network profiles and some of their pictures

 - it's a self-working thing from then on

Communicating the need of privacy

Communicating the need of privacy

- Do we need **privacy (that ancient bastard)** at all?

A close-up photograph of two vibrant red longhorn beetles (Cerambycidae) clinging to a thin, green plant stem. The beetles have long, segmented antennae and their bodies are a glossy, bright red. They are positioned one above the other, with their legs gripping the stem. The background is a soft, out-of-focus green, suggesting a natural outdoor setting. A dark grey rectangular box with the text "Yes ;-)" is overlaid on the left side of the image.

Yes ;-)

Communicating the need of privacy

- Do we need **privacy (that ancient bastard)** at all?
- Grasp the internet as a vast market place
 - where everything is said/upload/“given“ to everybody and can be used by anybody
- But is the internet solely **evil**?
